When you click on the registration link [https://mwu.idm.oclc.org/login?url=https://membership.audio-digest.org/registration/institutions](https://mwu.idm.oclc.org/login?url=https://membership.audio-digest.org/registration/institutions), the first thing it will ask is to select a desired product/membership. You should select the membership that most interests you, because Audio Digest will give you immediate access to that content and create some custom playlists for you. Whatever membership you select, you will have access to all content (except ACCEL Audio Journal) within 24 business hours.
The form will auto-populate with the Downers Grove library’s contact information no matter what your location is. Check the box that you agree to the Terms and Conditions and register.
The next page asks for more specialty information – again, this is used to create customizations, but you will get access to all the Audio Digest content (except ACCEL Audio Journal) within 24 business hours, no matter which specialty you choose.

Welcome Ms. Bannon. As part of the registration process, we’ll ask for some information regarding your professional practice. We’ll only use this information to enable an enhanced product experience and improve recommendations to suit your clinical and accreditation needs.

ADD
Once registration is completed, you will receive a confirmation email. You can now use the username and password you created to access the desktop version at https://mwu.idm.oclc.org/login?url=https://membership.audio-digest.org (select “Login with your Audio Digest Account”) or in the Audio Digest membership app. You will need to login using the Audio Digest link on the library website every 90 days to keep your login active. You can update your account information, including contact information and specialty, in the desktop version under “My Account.”
